

**VALUE ENGINEERED**

# BOARDWALK®

**For interior use in everyday traffic environments    ENTRANCE MATTING**

everyday traffic

Boardwalk is an easy to install, primary barrier mat suitable for medium levels of foot and wheeled traffic eg in schools, offices and some high street shops. Due to its non-metallic nature, Boardwalk is ideal for use where electronic tagging systems operate.

Boardwalk comprises a moulded black or grey rubber base with 100% solution-dyed nylon wipers. The wipers are available in a wide range of colours to complement any design.

Boardwalk is available in 12mm thickness for recessing into a matwell or surface mounting when used with a suitable ramping strip.

Boardwalk is supplied in 2.0m x 0.5m modules and oversized for shaping and trimming on site. Boardwalk is manufactured to ISO 9001 and ISO14001 International Standards.
